Otis eView combines passenger entertainment, car indicator functionality, system monitoring and emergency call technology into one smart, stylish display.

1. Inform
Provides passengers with car direction, location and destination information, as well as date and time.

2. Entertain
Keeps passengers connected to the world, streaming fun and useful information.

3. Customize
eView design templates, layouts and content displayed, can be easily customized by the building manager through the eService customer portal.

4. Integrate
Fully integrated into the car operating panel and features a built-in 3G module to ensure connectivity. A single phone line is used for both emergency calls and data transfers, eliminating the need for multiple lines.

5. Monitor
Integrates seamlessly with the Otis Remote Elevator Monitoring (REM®) system, tracking hundreds of system functions.

Secure
First to offer a direct, live video link to an OTISLINE® customer service representative.
Customize the experience

Choose

**Base Package**
With the base package, the eView in-car display automatically broadcasts national weather information and trivia.

**Premium Package**
The premium package gives building managers access to additional content options that include world news, local weather, and sports, reported by famous broadcasters from around the globe.

Customize
Choose from two layouts and many background options to display on-screen content.

- **Layout 1**
  Main screen and banner
- **Layout 2**
  Main screen only

Connect
Create customized notices for on-screen display that alerts tenants and visitors to building news. Use playlist and time screen functionality to show different messages and content at different times of the day.

Manage
Customize and manage content through the eService customer portal at any time and from any device—computer, tablet or smartphone.

Otis is the world’s largest manufacturer and maintainer of people-moving products, including elevators, escalators and moving walkways. Founded more than 160 years ago by the inventor of the safety elevator, Otis offers products and services through its companies in more than 200 countries and territories, and maintains more than 1.9 million elevators and escalators worldwide. Otis is a unit of United Technologies Corp., a leading provider to the aerospace and building systems industries worldwide.
