

LIFT LANDING BARRIER

To aid the protection of the public and working personnel, our recommendation is to provide a landing barrier for use by the maintenance engineer and lift inspector when accessing the lift shaft area.

LIFT LANDING BARRIER

BENEFITS

- **IMPROVED PASSENGER SAFETY**
- **PROTECTS AGAINST LIABILITY**
- **PROVIDES A SAFE WORKING ENVIRONMENT**

TECHNICAL FUNCTIONS

Used during maintenance and inspection when landing doors are open to inform the public of fall hazard.

CODES & REGULATION

The lift barrier complies with BS 7255, the standard for "safe working on lifts".
